

Pandemic Interview

People don't often live through a pandemic...but you have!

- What were the biggest changes in your life?
- Was there anything different that you liked?
- What was the most difficult?
- What/who did you miss the most?
- Did you work at home/were you homeschooled? What was great about that? What wasn't so great?
- Did you develop any new hobbies or activities?
- what did you watch?
- What did you make?
- What did you learn to do that was different?
- What would you like to put into the capsule as a memento of co-vid 19?
